Buckelew Orenda Center Intake Process for Sonoma County

This is for withdrawal management only.

General Information Orenda Center: The Orenda Center is a licensed 27 bed, co-ed withdrawal management level 3.2 only program.

Withdrawal management Level 3.2 refers to a type of care in substance use disorder treatment that provides residential services specifically designed for patients who require moderate levels of medical monitoring and support during withdrawal. Key characteristics of Level 3.2 withdrawal management:

1. **Residential Setting:** Patients stay in a non-hospital, 24-hour residential facility that provides a safe and supportive environment for withdrawal.
2. **Moderate Medical Monitoring:** This level is intended for individuals who need close monitoring due to the potential for moderate withdrawal symptoms that could require medication and supportive care but do not need the intensity of a hospital setting.
3. **Staffing:** The facility has a LPHA (Licensed Professional of the Healing Arts) via telehealth who works with non-medical professionals to confirm medical necessity. Staff are trained AOD counselors and behavioral health professionals who can manage withdrawal symptoms, monitor self-administration of medications, and respond to medical emergencies and provide emotional support and counseling.
4. **Length of Stay:** The duration of treatment in Level 3.2 can vary based on the individual's needs and the severity of their withdrawal symptoms, typically lasting 3-5 days to a week.
5. **Goal:** The primary objective is to safely manage withdrawal symptoms and prepare the patient for ongoing treatment, whether that is at a lower level of care (such as outpatient treatment) or a higher level, depending on the individual's progress and needs.

This level is designed for individuals who are at risk of withdrawal complications but do not require hospitalization or intensive medical care.

WHAT

The CARE Act is a **new civil court process** providing community-based mental health services to eligible people. It **prioritizes treatment, housing, and community support**.

CARE Act
**Community Assistance,
Recovery and
Empowerment Act**

**Find CARE in
Sonoma County**
More Information
<https://sonomacounty.ca.gov/CareCourt>

WHO

Eligible Californians living with **untreated schizophrenia spectrum or other psychotic disorders**.

HOW

A wide range of people can request an individual to enter the CARE process. The process will connect eligible individuals with services to support their recovery and stability.

CARE Act Community Assistance, Recovery and Empowerment Act

GOALS

The CARE Act supports a self-determined path to recovery. It is intended to be a process that can be supported and served by existing programs, providing a way for people to stabilize and exit homelessness.

CARE PROCESS

The CARE Act allows specified adults to petition a civil court to begin CARE Act proceedings. They are called "petitioners". The subject of that petition (the person who would benefit from services) is called the "participant" or "respondent." A court review will then determine eligibility. If eligible, the court will work with the participant and their attorney to create a voluntary CARE agreement or court-ordered CARE plan that connects them with services. There will be status review hearings to review progress and challenges. After 12 months, the participant may graduate from the program, or they may continue for another year.

ELIGIBILITY

Eligibility is determined on a case-by-case basis. Homelessness and mental illness alone are not enough to meet eligibility requirements. Some of the criteria include:

- 18 years or older
- A diagnosis of schizophrenia spectrum or other psychotic disorders
- Not clinically stabilized in ongoing voluntary treatment
- CARE must be the least restrictive alternative to provide recovery and stability

PETITIONERS

A wide range of people can petition the court for someone to get help. Some examples include:

- Family members
- Health care/social services providers
- First responders
- County behavioral health agency

CARE CONTINUES

After graduating from the CARE process, the participant remains eligible for ongoing treatment, supportive services, and housing in the community to support long-term recovery.

La Ley CARE

Ley de Apoyo, Recuperación y Empoderamiento de la Comunidad

OBJETIVOS

La Ley CARE apoya un camino autodeterminado hacia la recuperación. Se pretende que sea un proceso que pueda ser apoyado y atendido por los programas existentes, proporcionando una vía para que las personas se estabilicen y salgan del sinhogarismo.

La Ley CARE

La Ley CARE permite a determinados adultos solicitar a un tribunal civil que inicie un procedimiento en virtud de la Ley CARE. Estos adultos se llaman "solicitantes," o "petitioners" en inglés. El sujeto de esa solicitud (la persona que se beneficiaría de los servicios) se llama "participante" o "demandado" ("participant" o "respondent" en inglés). A continuación, el tribunal revisará la solicitud y determinará la elegibilidad. Si el participante cumple los requisitos, el tribunal trabajará con esa persona y su abogado para crear un acuerdo CARE voluntario o un plan CARE pedido por el tribunal que le ponga en contacto con los servicios. Habrá audiencias de revisión del estado para revisar el progreso y los retos. Después de 12 meses, el participante se puede graduar del programa o puede continuar un año más.

ELEGIBILIDAD

La elegibilidad se determina caso por caso. El sinhogarismo y la enfermedad mental por sí solas no bastan para cumplir los requisitos de elegibilidad. Algunos de los criterios incluyen:

- 18 años o más
- Un diagnóstico de espectro esquizofrénico u otros trastornos psicóticos
- No estabilizado clínicamente en tratamiento voluntario en curso
- CARE debe ser la alternativa menos restrictiva para proporcionar recuperación y estabilidad

SOLICITANTES

Una amplia gama de personas puede solicitar al tribunal que alguien reciba ayuda.

Algunos ejemplos son:

- Familiares
- Proveedores de atención sanitaria/servicios sociales
- Personal de auxilio
- Agencia de salud mental del condado

CARE CONTINÚA

Tras graduarse del proceso CARE, el participante tiene derecho al tratamiento continuado, servicios de apoyo y alojamiento en la comunidad para apoyar la recuperación a largo plazo.

El Sistema de Respuesta Familiar Urgente (Family Urgent Response System, FURS) es una línea directa que está disponible las 24 horas del día, los 7 días de la semana, los 365 días del año para que los jóvenes que han estado o están bajo crianza temporal y sus cuidadores puedan llamar y obtener ayuda **de inmediato** por cualquier problema pequeño o grande que tengan.

- Te conectarán con un asesor capacitado o con un par que te escuchará.
- FURS es un espacio **seguro** y **privado** en el que **nadie te juzgará** y en el que podrás hablar sobre tus preocupaciones y descargarte.
- Si necesitas apoyo adicional, un equipo puede asistir directamente a donde estés para ayudarte a abordar el problema y crear un plan para ayudarte a estabilizar tu situación y mantenerte a salvo.
- El equipo realizará un seguimiento y te ayudará a conectarte a ti y a tu cuidador con servicios y apoyos locales.
